The 18-hole Park course is characterized first and foremost by its natural features, including its untouched forests and abundance of water – all of which guarantee an unforgettable golfing experience. The jewel in the crown of the course is the Par-5 15th hole, which ends on a floating green that players have named the ‘island of tears’. Niitvälja has been the home of the Estonian championships for many years and has also played host to a number of international tournaments.

18-hole golf game Sea course

The Sea Course with its 18 holes stretching over 7,000 yards, is a true championship golf course. Holes built among unspoiled forests reach out to the beach and play along the Jägala River. With an overall elevation change of 40 meters, oak alleys, ancient boulders, and natural ponds the site is befitting of world class golf course. Due to the length and complexity, the Sea Course is a real challenge even for the golfer of the highest skill level. Since 2009, Golf World Magazine has voted the EGCC Sea Course as one of the best European golf courses. Since the Sea Course was first ranked 95th, it has improved its position over time. In 2014, the Sea Course was ranked 83rd in the prestigious TOP 100 with an editor's comment that it could easily end up in the top 50.
